

GRIM REMINDER OF WORLD WAR.

Bits of Bones, Leather and Cloth in Earth Around French Trenches.

(BY A. P. MONT WIRE.)
HALT LAKE CITY, March 1.—Cloth of all kinds and descriptions, leather and rubber, leather and buttons, were found in the trenches of the war, which arrived here today from France.

placed on the calendar and urged for early passage in the Assembly. He said he believed the Legislature would pass it this year, although it has been repeatedly defeated in the past.

INTERESTING TAX.
Gross inheritance tax collections in the State of California for the ten months of the collection year, which runs from May to May, total \$8,516,786.91, it was announced today by State Controller John S. Chambers.

A grand total of approximately \$7,660,000 is expected by the end of the collection year, Chambers stated.

Included in the collections is the inheritance tax on the Henry Miller estate amounting to \$2,158,168.91, and that on the Hearst estate, approximately one-half million dollars.

Wash. March 1.—Campaign costs of electing the President of the United States in 1920 were \$10,385,509, as estimated by the Federal Senate investigating committee, which today filed its report with Congress.

Of this amount, Republican spent \$8,100,738, while Democratic expenditures were \$2,284,771. The compilation took into account only the expenditures made by the candidates for President and Vice President.

Senator Kenyon, Iowa; Edge, New Jersey, and Spencer, Missouri, Republicans, and Fomere, Ohio, and Reed, Missouri, Democrats, signed the report, which was unanimous. While stating their conclusion that "the expenditure of these vast sums is a present and growing menace to the nation," no recommendations for Congressional action were made.

Constitutional difficulties may intervene to prevent legislation on the subject, the report said, but Congress should "take proper steps to amend" a Constitutional amendment dealing with the "difficulty" if it is found necessary.

COMMITTEES COSTLY.
While the largest sum of campaign expenditures were those of the national organizations, which the committee said was \$5,519,729 for the Republican party, and \$1,518,374 for the Democrats, candidates who sought Presidential nominations from the conventions accounted for a total of \$2,846,833.

Major-General Leonard Wood's efforts to secure the Republican nomination involved expenditure of \$1,775,303, the committee found, while for

Frank O. Lowden the total was \$14,000; for Senator Johnson of California \$194,000; for Herbert Hoover \$178,000, and for President-elect Harding \$113,000. Expenditures noted in behalf of other Republican candidates were \$77,000 for Senator Poindexter, Washington; \$65,000 for Vice-President-elect Coolidge, and \$46,000 for Dr. Nicholas Murray Butler of New York.

COX SPENT \$22,000.
Atty.-Gen. Palmer led Democratic candidates in expenditures, the amount being fixed at \$22,000, while Gov. Cox, who secured the nomination, spent \$22,000. James W. Gerard, former Ambassador to Germany, was listed at \$14,000, and Senator Owen, Oklahoma, at \$8,591. Two candidates in behalf of whom no money was found to have been spent were William G. McAdoo, Democrat, and Senator Francis, Republican, Maryland.

Something over \$700,000 of the total went into Senatorial and Congressional contests, the committee found, of which only \$11,000 was spent by Democratic national organizations created for the purpose. The Republican Congressional Committee spent \$75,949, while the C.O.P. Senatorial organization spent \$328,380.

Through State committees, the report said, the Republicans spent an aggregate of \$2,078,060, against \$88,323 for their Democratic competitors.

HOUSE PASSES PARK EXEMPTION MEASURE.
BILL PROHIBITING USE OF PLAYGROUNDS FOR WATER POWER GOES TO WILSON.

(BY A. P. MONT WIRE.)
WASHINGTON, March 1.—The House today passed the Senate bill exempting national parks from the provisions of the Water Power Act. The measure, which now goes to the President, would prevent construction of commercial dams and power houses in national parks of the West.

Uncompromising opposition to any and all attempts to utilize Yellowstone National Park flood waters for irrigation in Montana was expressed today by Secretary Payne of the Interior Department, who appeared before a Senate committee considering the bill of Senator Walsh, to authorize such use.

"When you once establish the principle that you can encroach upon national parks for any utilitarian purpose, be it power or reclamation, you have begun the destruction of all parks," Mr. Payne said. "It is the beginning of the end."

Chairman McNary of the Senate Irrigation Committee, announced that hearings on the Walsh bill would be postponed in view of the approaching change of Federal administration until a new Secretary of the Interior has taken office and has had opportunity to make a recommendation on this subject.

The action will result in the killing of the Walsh bill, but it can be reintroduced in the next Congress.

SIGHTLESS VETERAN NOW MOTHERS FOUR.
(EXCLUSIVE DISPATCH.)
MIDDLEBURY, N. Y., March 1.—Mrs. Alfred Jones, who lives near this city, had eight brothers in the war in France. All were gassed or injured, one losing both eyes, another one eye, others losing limbs or being maimed.

Now, she has been informed that the wife of the blind brother is dead, leaving him with four children to support. He has only a small pension from the government. He has learned to manufacture woolen caps and sweaters.

Copper Company Passes Dividend.
NEW YORK, March 1.—The Kennecott Copper Corporation today announced the passing of its regular quarterly dividend of 60 cents a share. Dividends at this rate have been paid by the corporation for two years.

SHARP DROP IN FOREIGN TRADE.
Both European and South American Business Less.
British Exports and Imports Show Decrease.
Nearly \$10,000,000 Less Goods Sent Germany.

(BY A. P. MONT WIRE.)
WASHINGTON, March 1.—There was a sharp falling off in European trade in January and a reduction in the volume of trade with South America.

A trade review issued today by the Department of Commerce showed that exports to Germany decreased nearly \$10,000,000 as compared with December and imports from that country nearly \$1,000,000. The export figures were \$48,862,000 and total imports \$4,830,000.

Exports to France were \$38,825,000, against \$38,011,000 in December, and imports \$10,015,000, against \$11,895,000.

Exports to Italy were \$29,386,000, against \$31,244,000 the month before, and imports were \$2,235,000, compared with \$4,638,000.

Exports to Spain were \$14,985,000, as against \$17,029,000, and imports were \$2,495,000, against \$2,051,000.

Exports to Brazil were \$14,128,000, against \$19,223,000, and imports \$4,712,000, against \$9,539,000.

Exports to Chile in January were \$6,855,000, as against \$7,562,000, and imports \$5,041,000, against \$7,820,000.

Exports to Argentina were \$24,231,000, compared with \$22,206,000, and imports \$5,740,000, compared with \$9,444,000.

Exports to Uruguay were \$2,899,000, compared with \$3,213,000, and imports were \$988,000, against \$758,000.

Exports to Central America amounted to \$8,735,000, as against \$7,744,000, and imports \$1,457,000, against \$1,999,000.

Exports to Canada amounted to \$54,589,000, as compared with \$61,699,000, and imports \$24,247,000, against \$55,506,000.

Exports to Japan were \$48,405,000, as against \$48,357,000, and imports \$12,970,000, against \$10,795,000.

Exports to China were \$12,645,000, as against \$13,699,000, and imports \$5,050,000, against \$7,722,000.

Exports to the Philippines were \$25,000, as against \$18,352,000, and imports were \$6,930,000, as compared with \$11,348,000.

BORAH GLEEFUL OVER DRUMMOND'S ACTION.
REPORTED LEAGUE INTEREST IN COSTA RICA AFFAIR MAY START NEW ROW.

(EXCLUSIVE DISPATCH.)
WASHINGTON, March 1.—There is prospect that the reported action of Sir Eric Drummond, as secretary-general of the League of Nations, instructing the political advisers of the Council of the League now in session at Paris to investigate the differences between Panama and Costa Rica with a view to intervention, will stir up another political controversy over the question of the effect of the League of Nations upon the Monroe Doctrine.

Senator Borah, League "irreconcilable," hails the reported action of Sir Eric Drummond as supporting the contention of the Republican opponents of the covenant, who voted for the Monroe Doctrine reservation.

"I would assume," said Senator Borah, "from Sir Eric Drummond's action that he is correctly quoted, that he is desirous of destroying the last vestige of the League. This action of his confirms every possible objection which has been made to the League and is utterly violative of the Monroe Doctrine in its very essence."

REPORT ON LANDS IMPEACHMENT TODAY.
CHARGES AGAINST FEDERAL JUDGE REFERRED TO SUBCOMMITTEE.

(BY A. P. MONT WIRE.)
WASHINGTON, March 1.—Impeachment charges against Federal Judge Landis were referred today by the House Judiciary Committee to a subcommittee, with instructions to report tomorrow.

The subcommittee, which will recommend action be taken on charges preferred by Representative Welby, Democrat, of Ohio, is composed of Representatives Dyer, Missouri; Husted, New York; Boies, Iowa; Republicans; and Gard, Ohio, and Summers, Texas, Democrats. It was indicated it might recommend investigation of the charges during the next session or dismissal of the matter in a resolution expressing criticism of Judge Landis for accepting a salary of \$42,500 as an umpire arbiter of organized baseball while serving on the bench.

IF SKIN BREAKS OUT AND ITCHES APPLY SULPHUR
Just the moment you apply Mentho-Sulphur to an itching, burning or broken-out skin, the itching stops and healing begins, says a noted skin specialist. This sulphur preparation, made into a pleasant cream, gives such a quick relief, even to fiery eczema, that nothing has ever been found to take its place.

Because of its germ-destroying properties, it quickly subdues the itching, cools the irritation and clears the smooth skin in place of oily eruptions, rash, pimples or roughness.

You do not have to wait for improvement. It quickly shows. You can get a little jar of Mentho-Sulphur at any drug store.—Advertisement.

WIRELESS IN WARSAW TO BE POWERFUL ONE.
(BY A. P. MONT WIRE.)
NEW YORK, March 1.—Plans for a wireless station in Warsaw capable of direct communication with the United States are included in a contract between the Polish government and the Radio Corporation of America, it was announced today.

It was said that the agreement involves more than \$1,000,000.

Unions Seek Exemption.
WASHINGTON, March 1.—Exemption of labor unions from prosecution under the antitrust laws would be provided in a proposed bill considered today by the executive council of the American Federation of Labor. The bill is designed to meet the recent decisions of the United States Supreme Court holding organized labor liable under the antitrust laws.

**Secret Session Handles Question
Frankly.**

(Continued from First Page.)

made the motion to go into secret session. The committee members carried and the doors locked.

The action of the Senate in going into secret session to discuss a legislative measure is almost without parallel. Such action was not resorted to even in the darkest days of the war.

It is understood that Senator Lodge began the discussion behind closed doors by reviewing in considerable detail the relations with Japan. All the Senate members present were present and the discussion was held in a friendly and amiable manner.

Senator Lodge is reported to have asserted that the Japanese could not be trusted in any emergency and that it was impossible to deal with them through the ordinary method of diplomacy. The Japanese situation and revealed particularly about the negotiations over the proposed naval program.

Senator Lodge is reported to have asserted that the Japanese could not be trusted in any emergency and that it was impossible to deal with them through the ordinary method of diplomacy. The Japanese situation and revealed particularly about the negotiations over the proposed naval program.

SENATOR FALL IS FIRM ON MEXICO

(Continued from First Page.)

Mexico and to Mexican property in the United States; appointment of a commission to determine boundary disputes, notably in the "Chamela Bay" case; and the proposed Colorado River irrigation system and the suspension of Mexican labor in the United States.

The Senate committee, the latter said, also recommends an agreement with the future protection of American lives and property and that such an agreement shall be embodied in a protocol to be included in a treaty following the conclusion of the Mexican government.

M

WEDNESDAY MORNING, MARCH 2, 1921.—PART II: 12 PAGES.

POPULATION 1,430,000

HOLABIRD, PIONEER, DIES.

Old of West Succumbs to Cerebral Hemorrhage.

Imperial Valley at Time of Bankruptcy.

War Service Followed by Notable Career.

One of the most interesting figures in Southern California history, and a pioneer in the Imperial Valley, Col. William H. Holabird, died last night at his home in San Francisco, California, after a long illness. He was 74 years old. Col. Holabird was born in Vermont, and served in the Imperial Valley during the Mexican Revolution. He was a member of the United States Army, and served in the Philippines. He was a pioneer in the Imperial Valley, and was one of the first to settle there. He was a member of the Imperial Valley Chamber of Commerce, and was a prominent figure in the community. He was a man of great energy and initiative, and was a pioneer in many fields. He was a man of great courage and determination, and was a pioneer in many fields. He was a man of great energy and initiative, and was a pioneer in many fields. He was a man of great courage and determination, and was a pioneer in many fields.

GIRLS PLOTTED TO BURN WHOLE SCHOOL, ESCAPE.

Ventura Revolt Laid to Hearst's Attacks on Institution; Mutiny is Quelled, but More Girls Get Away.

BY A. M. ROCHLIN.

(EXCLUSIVE DISPATCH.)

VENTURA, March 1.—Full details of the conspiracy to destroy by fire all the buildings at the California School for Girls here and then stage a wholesale escape of the 180 inmates of the institution were made public tonight by Mrs. Mary A. Hill, superintendent of the school, following the announcement that the spectacular revolt of the last forty-eight hours is now under control.

Mrs. Hill's statement was made after the last of the ringleaders of the uprising was removed from the County Jail to the school grounds and just before the formal meeting tonight of the board of trustees of the institution. According to Mrs. Hill, the girls planned to set fire to every building on the place, using the live coals from their respective cottages. The simultaneous fires in the buildings were to give them a chance to liberate the entire school. Plans for leaving Ventura county also were discussed by the leaders in the conspiracy, Mrs. Hill said.

While the board of trustees was meeting at the school tonight four more girls escaped and fled to the hills. The presence of eight extra officers from the Ventura State School and a number of other guards added assurance to the official statement made tonight by Supt. Hill that the situation is "well in hand." The last of the ringleaders of the uprising was taken back to the school and the County Jail, for some time the noisiest place in Ventura county, is strangely silent. On the hill above the city, in their different cottages and in the "P. F. Cottage," officially known as the cottage of the trustees, the girls are awaiting action by the school officials following one of the most sensational riots ever witnessed in any State institution.

Three members of the board of trustees of the school and Mrs. Cornelia Stanwood, secretary of the State Board of Charities and Corrections, arrived today and at once went into conference with Mrs. Hill. Up to a late hour tonight no statement representing the views of the board was issued.

MOVE GIRLS BACK. The arrival of the officers from Whittier gave the school authorities the first opportunity for mastering the unruly and active wards, and the task of transferring the girls to the County Jail was started this morning. Mrs. Hill personally supervised the difficult task. Using a large county automobile, with storm top, the girls were taken to the smaller one, from where they were taken out through the back door of the County Jail, and then led to a side street where the automobile waited. This was done, according to the jail attaché, to keep the girls from knowing what was going on. This, however, was not altogether successful, for the girls amused themselves by letting the whole county know they were there and by breaking through the bars of the jail building. The girls were taken to the County Jail, and then led to a side street where the automobile waited. This was done, according to the jail attaché, to keep the girls from knowing what was going on. This, however, was not altogether successful, for the girls amused themselves by letting the whole county know they were there and by breaking through the bars of the jail building.

When Sheriff McMartin and his men arrived at the school Sunday they were met with statements by the girls that they had been advised they were wards of the State and could not be touched by the Sheriff or Ventura county officers. The girls showed they had full confidence in the statement.

DAUGHTER OF CABINET MAN COMING HERE

Miss Agnes Wilson Takes Bank Position; Has Aided Secretary of Labor.

Miss Agnes Hart Wilson, daughter of the Secretary of Labor, has accepted the position of head of the women personnel of the First National Bank, the last member to arrive, drove over from San Francisco in order to be present. Mrs. Charles M. Tull, of Los Angeles, and Mrs. Paul M. Downing, of San Francisco, are the other members of the Board of Trustees present. Mrs. Downing arrived this morning. Mrs. Wilson is regarded as one of the best informed business women of Washington. She has served as secretary to her father since his appointment as Secretary of Labor and aided him in organizing his department. Those in Washington who know her regard her as an assistant Secretary of Labor for, during her father's illness, she took up many of his duties. Prior to Secretary Wilson's appointment as chief of the Labor Department, she served for many years as his private secretary while he was a member of Congress.

GAS SPOUTS MUCK ABOVE WELL DRILL.

Drillers in San Fernando Wild Cat District Strike Oil Pocket and Good Signs.

A "wild-cat" oil well near Owensmouth, in the San Fernando Valley, caused much excitement in that territory yesterday when an explosion of gas sent oil and water into the air eighty feet above the derrick. It is said that every indication points to oil in paying quantities. The well is on the C. F. Hale ranch, three miles from Owensmouth, and is the result of six months of effort upon the part of W. O. Price, who has expressed confidence from the first that he was working in a paying territory. The hole is now 340 feet deep and it is expected that when drilling is resumed in a day or two, as soon as the flow of gas is placed under control, it will require progress of only a few hundred feet to strike a large oil pocket which will be tapped. Reports from Owensmouth last night indicated that much of the territory in the vicinity of the new well will soon be exploited and that practically every acre in that section of the valley is under lease to prospective drillers.

BANDITS IN SHABBY CAR STOP THREE.

Young Men Try Jerent Parts of City for Raids; Armed Policemen Out.

Three pedestrians were held up within an hour in widely separated sections of the city last night by three young bandits driving a small, dilapidated touring car. Paul P. Rogers, an employee of The Times, living at 1623 Lomax street, was robbed at Scott and Logan streets of \$70 as he was on his way to pay a grocery bill, he reported to the police. A short time later G. M. Lee of 1218 Orange street was held up at Orange and Lucas streets, half a block from his home, by the bandits, but they failed to get anything. Mr. Lee was carrying his money in an inside pocket of his vest. The bandits then switched to Holmwood, where they held up W. L. Largent of 1416 Malbourne avenue at Kingswell street and Rodney Drive, relieving him of \$13, according to his report to Sergeant Jack Wallace.

Half Rates for Irrigation Are Given by Board.

Half rates for irrigation water used in the San Fernando Valley during March and April were granted by the Public Service Commission yesterday at the request of the Farmers' Union of California, which pointed out that rain shortage makes it appear that crops will not grow unless cheap water is available.

Girl Run Down; Army Man Held as Fast Driver.

Miss Hazel Kring, aged 25, of 4118 South Figueroa street, was seriously injured last night when she was run down by an army motorcycle driven by Sergt. Leo B. Thorne, attached to the recruiting detail stationed in this city and who resides at 219 South Broadway avenue. The accident occurred when the young woman tried to cross Figueroa street, between Fourth and Fifth streets, at the Receiving Hospital Police Surgeon Savarier found that her left thigh was broken and that she had concussion of the brain.

Extortion Charged.

Accused of extortion of \$375 from Mrs. A. E. Lashis on the threat that he would not pay back any of \$1500 she advanced on a real estate deal that fell through, Alex Watson, local realty operator, was held to answer yesterday by Justice Brown. He was prosecuted by Dep. Dist. Atty. Hill.

FOR FIELD STUDY.

Members of the Audubon Society will leave at 9:40 a.m. tomorrow on a Glendale car for Verdugo Park on a field study excursion.

CITY NOT ABLE TO RENT ALLEY.

Cannot Charge Bullock's for Use, Realty Board Says.

Lease Value Estimate Shames Hearst Exaggerations.

Controversy Put Up to the Public Works Board.

That the city of Los Angeles possesses no right to charge Bullock's or anyone else for the space over or under St. Vincent's Place is the report which will be submitted to the City Council this morning by the Los Angeles Realty Board. The report points out that if the easement in St. Vincent's Place was granted to the city, it would mean only, which is the fact, then, the report says, "the rights of the city would not be in any way invaded by a structure such as Bullock's is now building to connect its Broadway and Hill street stores and which Hearst papers assert is an invasion of city rights."

The report, which was requested by the City Council, is signed by President Frank Ryan and Secretary S. Ross Fenner, and has the approval of the governing committee of the Realty Board.

A Special Appraisal Committee of the organization calls a second falsehood of Hearst's exaggeration, stating that the city would not be able to rent the space over St. Vincent's Place.

Dr. John R. Haynes, local commander-in-chief of the Hearst campaign against Bullock's, declared to the City Council that the annual rental value of the space used by the connecting unit being built by Bullock's is \$45,000 a year, while Hearst's Evening Herald has talked wildly every day about the city's giving away \$500,000 worth of property in St. Vincent's Place.

FALL FROM STREET CAR COSTS LIFE.

Unidentified Man Dies of Hurts; Fractured Skull in Hospital Diagnosis.

An unidentified man past middle age was fatally injured last night when he fell from a moving street car on Seventh street between Wall and San Julian streets. His head struck the pavement, and he died later at the Receiving Hospital of a basal fracture of the skull.

According to the report of the Los Angeles Railway Company, the man fell from eastbound car No. 214, which was in charge of Conductor Berry and Conductor Randolph.

There were no letters nor other means of identification in the man's clothes. He appeared to be a laborer about 35 years old, and was clad in an old suit of brown homespun. He was about five feet eight inches tall, of medium build and had gray hair and a beard. The police are trying to locate his relatives.

PEN POINT

BY THE STAFF.

We really expected the chief Ambassador to be named as secretary of the interior.

Cooties are reported at the jail. The civilization of the Pen is knocking at our doors.

A South Side man is missing according to reports to the police. The trouble, possibly.

As we understand it, Uncle wants to know something about "man" in the various mandates.

D'Annunzio may join the front the local movies. He ought to be in a "disappearing" scene.

In the new administration the United States treasury is referred to as "cutting a lion."

President Wilson says he is for peace. Then why doesn't he make it popular within the ranks of the democracy?

Summer has burst upon us the abundance of a sweet night. Watch out for the pioneers in white suits and straw hats.

Travelers in Japan say that people over there are very big. No wonder, they have no Eight Amendment to their constitution.

Karlson, the matchless, is on the high road to recovery. Let us hope that his voice will be better than ever, if that is possible.

That grinding noise you hear in the East is caused by Johnson grilling his teeth over Herbert Hoover's appointment as cabinet.

Looks as if in the Senate the case Representative Wells about to be run down between bases and will be out if someone doesn't drop the ball.

Is the League of Nations asleep the switch? A holy war has been declared between the Montagues and the Capulets. How human will fight upon being!

Secretary Daniels asks for facts in regard to the Canadian lion fight. He probably wants something of dog sledging the program of naval aeronautics.

A Salt Lake printer has broken records in composition on a line. He ran the machine so fast that fellow-compositors thought he was playing "Scots Wha Hae W' Waled" on it.

We read a lot of stuff about the end of an event "spreading wild fire." There is but one thing in this world which this declaration can be attached to all false. We refer to scandal.

Chairman White of the Democratic National Committee says he is lecturing the money to pay the indemnities of that body to the cent. campaign. That may account for some of the "crime wave."

We were always of the opinion that the man who could not do some device to conserve hot water would be doing a good thing for the world. But we may be wrong, as George Monroe used to put it.

More troubles for the victims of the local hold-up men. The new demand that their victims be their hands instead of their money. Why not make performance as painful as possible?

What an opportunity it would be afforded the paragraphers if ex-actor Weeks had been determined on as the choice for Postmaster-General. They could have said something about it taking Weeks to our mail.

If President Harding rescinds civil service order of President Wilson placing first, second and third class postmasters within civil service protection the American Association of Postmasters Country Chair will get busy.

A round-robin signed by the Democrats of the country showing the appreciation of the selection of H. Hays of Indiana for Postmaster-General, is in order. The average Democrat is inclined to lift his fist to the fellow who kicks in his side.

It seems to be settled that for President Taft is to have a place on the United States Supreme Court within a short time after the birth of the Harding administration. And would certainly look the part of justice in a picture of the Supreme Court.

Ten million credit should not be on the young man who recently found a bouquet of a million dollars. We were coming along Broadway the other day and a friend asked us if we were going to get a car. We were standing at the curb with the air of the tires.

Editors of agricultural newspapers are in favor of Secretaries of Agriculture. The present Secretary, one, and his successor, Henry Wallace of Iowa, conducts such a journal in the Hawkeye State. They have been busy so long writing about farming that there is an abundance that they can give a practical demonstration of their agricultural knowledge.

RENUNCIATION. The coral glories of my depths. The grand feet never know: How could they guess that underneath there flames the rose?

Only a little bark that sink. Be wary, to my breast. I show the gardens of my heart—Unusually engaged.

But you, I would not want to dip. Your sails until the goal be won. So, though your keel plows through my heart, Call on, swift ship. My own proud ship. Call on! Call on!

MARY DAY WINN.

NOW CALLS HER GUILTY ONE.

Says He Was Victim of Designing Woman.

Home, Then Found He Was Married, He Says.

Father and Nonexistent Son Also Feature Suits.

A story of how he had ended his savings to Mrs. Gertrude Irwin, whom he expected to marry, but he learned later that she had not purchased the house, but had been married for a while to another man, Richard Poles, the stand yesterday in Justice court in an action in which Irwin is accused of the embezzlement of \$53 from Poles on December 1st.

The complaining witness declared that all told he paid Mrs. Irwin \$3900. Of this, he said, \$1390 was paid since her marriage to C. Irwin of 5533 Seventh avenue.

He testified that through the design of the woman he was induced to part with all his money except what he needed for his bare existence. He was employed in a machine at Ryan and says he had seen the woman for twenty years, but continued to send her letters, written by the defendant, who was introduced in evidence by Dist. Atty. Hill. One of these letters, written on Nov. 1, 1918, said: "Say, dear, what is the matter with the checks? Have you some sweet widow? Hat! Hat! there is about two due now, dear. I have not enough to pay mine, so send me a check and I'll send you some new pants." "Jimie," according to the plaintiff, was a son who later proved to be a fake. On one occasion, she said she could not meet him, as her "just die," but, he testified, he had seen her father had died a year before.

In another letter, the defendant, the plaintiff said, that she purchased a home at Fifty-third street and Monica avenue for \$10,000, and later, that she needed money to put her on the roof. The complaining witness said he learned that she had not bought the house at all, but that her father had died a year before.

The defendant's sister, Mrs. Dorothy Soles of Bakerfield, said Irwin did not have a house at address given.

Attorney Frank Dominguez, defense counsel, declared that all of the money given by Poles to Mrs. Irwin was given to her by her husband after Poles had complained the Detroit Attorney's office. She was set free on bail.

The City Council is expected to confirm the appointment by Mayor Snyder of Edwin Bergstrom as a member of the Municipal Art Commission to succeed A. F. Rosenheim, who was removed by the Mayor.

The Council yesterday referred the appointment, as is customary, to the Welfare Committee, for a report, which is expected to be made to the Council following the committee's meeting tomorrow afternoon.

Mayor Snyder summarily removed Mr. Rosenheim after the latter's admission that he had asked for a fee of \$250 in connection with the design of a clock for the Italian Jewelry Company, approval of which was then pending before the commission. Mr. Rosenheim admitted that he had accepted an advance payment of \$100 and had prepared plans for the clock, which had been later approved by a committee of the commission of which he was a member.

Mr. Bergstrom, who takes Mr. Rosenheim's place, is president of the Southern California chapter of the American Institute of Architects.

The City Council is expected to confirm the appointment by Mayor Snyder of Edwin Bergstrom as a member of the Municipal Art Commission to succeed A. F. Rosenheim, who was removed by the Mayor.

COUNCIL DECIDES TO OPEN FIFTH STREET.

PLAN NOT DECIDED UPON, BUT CONDEMNATION PROTESTS ARE PUT ON SHELF.

The City Council yesterday unanimously denied the protests against the proposed condemnation of land for the improving of Fifth street, west of Grand avenue, with the result that the proceedings for the extending of the thoroughfare will proceed to be put through the courts at once.

The Council also, at the request of the Friday Morning Club, the Hollywood Women's Club, the City Planning Association and other organizations voted to call upon the City Planning Commission for a report as to its recommendations as to the best method of extending the street.

While representatives of the organizations who spoke at yesterday's meeting expressed their disapproval of the open-cut plan, Business Manager John P. Kennedy of the Fifth Street Association, and other members of that organization who spoke, declared that this method of extending the street would leave the hill unimpaired as the site for a municipal library or auditorium has been the most practical and economical solution of the problem.

The Council also, at the request of the Friday Morning Club, the Hollywood Women's Club, the City Planning Association and other organizations voted to call upon the City Planning Commission for a report as to its recommendations as to the best method of extending the street.

A Nation-Wide Presentment of Silks This Week—Fashion's Foremost Fabric

FROM Peter the Hermit and his Crusaders to the America of our own time! It seems a far, far step, indeed, and yet!

To the religious zeal of the ancient mystic no little part of America's industrial and artistic development can be truly ascribed.

For when from the perspective of the centuries he voiced his call to faith he put into action incalculable forces which were even to affect the development of textile art. And this, in turn, was to bear unthought-of fruit in textiles which you and I wear and use as a part of our daily lives.

All this was effected by old Peter—indirectly, it is true. More directly it was brought about through the instrumentality of Roger the Norman, King of Sicily, who, enlisting under the banners of the Second Crusade, in 1147, was turned by circumstances from the religious spirit of his original purpose.

So it came that he conquered and sacked the cities of Thebes and Corinth, treasure cities of silk, and rich centers of the silk industry, too, to which Byzantium looked for the glorified textile she loved so well.

Indeed, the decline of Thebes and Corinth, effected by Roger's triumph, was to mean the final ruin of that Greece, which, while sunk from her ancient splendor, was still a jewel in the diadem of the Byzantine empire.

"Coulter Silks, Set a Quality Standard"

THE spread of silken activity through Europe, however, was less due to the tremendous booty of silk which Roger gained than to the acumen which caused him to transplant the weavers themselves, the eggs of the silkworms, the very mulberry trees to Palermo, where he cared for the workers and encouraged them in every possible way.

Thus did Roger bring about what we might call the second westward step in silk manufacture in Europe—the first being caused by monks sent to China by the Emperor Justinian, who returned with silkworms' eggs secreted in their staffs and so enabled the Byzantines to start a sericulture of their own.

In this way was begun in Italy the cultivation of silk which makes that country today a great factor in its production in the raw condition, and so commenced the Italian excellence of quality which well may be the legacy left by the uprooted silk workers, who were transplanted to Palermo by the conquering Roger.

Is it not strange to think that this almost piratical adventure of Roger the Norman—an adventure, which, as we have shown, was directly inspired by the call to the faith of the Hermit Peter—should cause a tremendous development of silk throughout the western world? Or should leave its impress upon our own country and time and even open the way for that world dominance in the silk industry which distinguishes America today?

"Coulter Silks Set a Quality Standard"

REAR GUARD IS READY TO GO.

Cubs' Second Contingent to Leave Chicago Tomorrow.

Kid Gleason to Lead White Sox to Texas Camp.

Pitchers and Catchers Will Make Up First Squad.

[EXCLUSIVE DISPATCH.] CHICAGO, March 1.—Two contingents of baseball talent will enter in Chicago for distant camps this week.

Johann Evers's heavy artillery, composing the rear guard of the California-going Cubs, leaves Thursday night while Kid Gleason will lead the first squad of his hopeful Alabamians to Waco, Tex., Friday night.

ARE REGULARS. President William Veeck of Secretary John O. Berry will have charge of the North Side crowd, which consists mostly of regulars, although a few new men are in the party.

Over south the personnel will be made up principally of young pitchers and catchers.

It promises to be a busy week for the officials for the two clubs. The Cub regulars will commence to drift in tomorrow while the Sox athletes will all be on hand before the whistle toots for departure.

WARREN SIGNS. The signed contract of Hoke Warner, former Pittsburgh third baseman, has been received at the Cubs' office and it closes up a long winter's work for President Veeck and Secretary Berry. Warner completes the roster and is expected to get to Chicago Wednesday. The addition of Warner makes the prospective fight for infield jobs a hot one. Deal is none too sure for the hot corner position the way things stand now.

The personnel of the first Sox squad, which Gleason will lead to Waco, is uncertain. Practically all of the men will be pitchers and catchers although a few of the regular infielders and outfielders may join the party. According to Secretary Harry Grabner about twenty athletes will make up the first batch. The veterans will leave a few days later.

FIRST TO REPORT. George Loez, Jr., was the first of the out-of-town 1921 Sox to report. During the spring grind in 1920 he had the war correspondents scratching their heads as a result of his brilliant style behind the plate. He had little opportunity to show his ability last summer. The Sox were in a tough fight all the way and Schalk caught 151 of the 154 games. Loez seems to have the edge on the other candidates for the chief assistant job to Schalk.

On account of the hot temperature down in the south it is probable the Sox pilot will have his men out in the morning. According to present plans the workouts will get under way at 9 o'clock and last until 3 in the afternoon with time off at noon for a light luncheon.

STRANGLER LEWIS BEATS PAULISKA.

[BY A. P. NIGHT WIRE.] BIRMINGHAM (A.P.) March 1.—Ed (Strangler) Lewis defeated Jack Pauliska, Hungarian champion, here last night in two straight falls. Lewis used the headlock in the first and an armhold in the second, thirty-five and twelve minutes, respectively, being required.

KANSAS AFTER LEONARD.

[BY A. P. NIGHT WIRE.] MILWAUKEE (Wia.) March 1.—Rube Kanzer of Buffalo, signed to meet Richie Mitchell here March 3. Tom Andrews, local promoter, today stated he desires to meet Benny Leonard, lightweight champion, in New York first. Kanzer said he would meet Mitchell March 30.

PEZKE WINS IN A WILD MAT BATTLE.

[EXCLUSIVE DISPATCH.] NEW YORK, March 1.—John Pezke of Ravenna, Neb., one of the toughest birds in the ring from the West, fairly swamped Armas Laitinen of Finland, in a fierce wrestling match, which lasted seventeen minutes at the seventy-first Regiment armory last night. During the short period the men were on the mat they pitched each other out of the ring on four different occasions. Pezke got a double wristlock on the Finn twice. Finally, he finally obtained a hammerlock, the foreigner, claiming his right arm was injured, refused to continue. The referee, George Schaner, gave the verdict to Pezke.

U. OF C. INVITED TO HONOLULU.

[BY CABLE AND ASSOCIATED PRESS.] HONOLULU, March 1.—The University of Hawaii has invited the freshman football team of the University of California to play the Christmas game here next fall. The invitation, which was made by the same teams meet at Berkeley in 1922.

WILL TURN OUT GOLF CHAMP.

(Continued from First Page.)

He'll be of immense value to the American League.

Today Lasker is to take on a round over the Pasadena links with Douglas Mitchell, organizer of the Indian Hill Club near Chicago, a course which is said to be the finest test of golf in that district.

The fair ones of the sex are warning up to the municipal links championship which is to be played over the Griffith Park course March 19, 20 and 21. This is an annual city thirder event and was won last year by Miss Selma Newman.

According to Mrs. A. M. D. Trabue, chairman of the greens committee, the championship will be open not only to local women players, but to visitors as well. Handicaps of the Southern California Golf Association will prevail, but those who have no handicaps will have to play the course a few times in their three best cards in order to obtain a rating.

With four days set for the tourney instead of running it off over the week-ends as last year, the qualifying round will be played on Monday, March 22. Second round matches will be played on Tuesday, third round matches on Wednesday and the finals on Thursday, March 23.

The high-gear Leo Diegel and the high-powered Hutt Martin, two golfers of repute in our community, didn't leave for San Francisco yesterday, as per expectations. The United States destroyer, which was to have conveyed them northward, was ordered to San Diego, and so these birds will swallow their pride and ride the coach northward today.

Yesterday morning, Diegel, the Pasadena Golf Club pro, starred in a movie serial ten on the grounds of the Hotel Green in Pasadena, and is now altogether too cocky to talk to the press. He is a member of the club today. The members are fighting for nice big gory breakfasts to be served at the clubhouse tonight, the losers in today's team match, thirty or so a side, to foot the cost of the club members, and plans will be announced for proreum, addition to the clubhouse, which has become altogether too small for the increasing needs of San Gabriel's golf club.

The Charley-Herman-A. M. Andrews were resumed yesterday at the Los Angeles Country, with Andrews a 1 up victor. It is reported that the course record was not shattered.

TIGERS GRAB CARL SAWYER.

(Continued from First Page.)

clover in each shoe, a celluloid rabbit's foot for a shoe and that the first thing yesterday morning he bit a hole in a bag of horseshoes.

ANOTHER RECRUIT. Arthur Primm of Evansville has his entire time to baseball from now on. So as to have none of those worries which assail the business man he has sold his poolroom, and he is now a full-time player.

Sure looked natural to see Truck Hannah handling the shure shoots. Frank Gleich received a commission of his favorite hickory in the shape of a bat.

Eslick has fourteen pitchers, and as he will not carry more than seven, there is bound to be terrific competition.

In the opening-day squad were Hannah, Shore, Gorman, Love, Fromme, Dell, Smallwood, Alcock, Morse, Red Smith, Gleich, Chadbourne, Schneider, Kenna, Gunther, O'Brien, Tipton and Cross.

Now that Fisher has been traded, Elmer Hill, young right-hander with the club last spring, is the only hold-out, and therefore knows what it means to be lonely.

LOOKING 'EM OVER. Bert Whaling, who goes to Beaumont in the Yellow, is the latest part of a bystander. Bert opines that he can do all the necessary perspiring in Texas.

Yannigan vs. Regular games will not start until next week, the Tigers in the meantime confining themselves to light fielding and batting practice.

While the Tigers were getting up steam at the camp near Chicago, the advance guard of Angels departed for Elsinore, which President Powers has picked out as a training spot for his ball club.

Those notified by Secretary Weber to report were Otto and Art Crandall, Ray Keating, Art Griggs, Sam Crawford, Tom Hughes, Nick Domovich, Tony Rego, Pete Lapan, Oscar Sianago, George Lyons, "Lefty" Douglas, Bert Nischoff, Tom Casey, E. Davis, Kaufman, Anthony Vrsalovich, J. Clemens, "Lefty" Thomas and Don Wallace.

Lapan, who believed himself about to be traded, didn't make the trip, while Lyons may not report for a week or more. Others who will report at the camp next Monday are McDonald, Zeider, Elmer, Stas, McAuley, Brown, Aldridge, Andrews, Carroll, Bogart, Reinhard, Anheir, Atwood and Lindmore.

PEZKE WINS IN A WILD MAT BATTLE.

[EXCLUSIVE DISPATCH.] NEW YORK, March 1.—John Pezke of Ravenna, Neb., one of the toughest birds in the ring from the West, fairly swamped Armas Laitinen of Finland, in a fierce wrestling match, which lasted seventeen minutes at the seventy-first Regiment armory last night. During the short period the men were on the mat they pitched each other out of the ring on four different occasions. Pezke got a double wristlock on the Finn twice. Finally, he finally obtained a hammerlock, the foreigner, claiming his right arm was injured, refused to continue. The referee, George Schaner, gave the verdict to Pezke.

CHICAGO CUBS SHOW PEPPER.

Manager Evers Instills Lively Spirit into Lads.

Scout John Doyle Puts It Over on Youngsters.

Pitchers Are Sent Through Batting Practice.

[EXCLUSIVE DISPATCH.] AVALON, March 1.—There was plenty of action on the Cub training field this morning. In order to get first-hand dope, Harry Niley and Oscar Redlow of the Chicago press joined the batting aggregation.

Two film services were on the ground to register all the "pepper." The \$15,000 battery, grover, Cleveland Alexander pitching to William Killefer, was in full action and held the attention of the local fans. A juggler in a vaudeville act has nothing on Killefer.

STICK TO 'EM. Johnny Evers, having him out from all angles. It seemed as if the very tips of Killefer's fingers must be magnified as ball just sticks to them. Also he is the happiest youngster of the crowd, with all the gling corned.

Tom Doyle, with a home run made before the King of England across the pond to his credit, is showing up in great form.

Scout John Doyle, a youngster with the Baltimore Orioles back in 1919, put out over on a spy when it comes to hiking. Starting out over the hills in regular squad formation, Doyle set the pace.

A mile on the road and Doyle out a curve and gained a mile and a half on the young fellows—just how it was done is Doyle's secret. He and Doc Brady are said to be in conspiracy with some goat-gland oil.

O'Farrell, Weaver and Cheever were given up as lost when the squad trotted back to the St. Catharines to sample Chef Rodney Jefferson's southern concoctions. They had found a pastime of their own— their alibi, however, was a patriotic one; they had found a flag blown from a "peaking" mountain and, at the risk of their lives, scaled the dizzy heights to replace the Stars and Stripes.

MAKES WISH. This afternoon the trail led over the stage road to Wishbone Loop, each man respecting the old Indian legend and solemnly making a wish for the season, so the Cubs will have the backing of the departed spirits of the Pimungas, who surely ought to bring home the pennant.

Batting a little pill over the greens is advocated as the best elbow grease for a pitching arm by Grover Alexander, so Manager Evers detailed George Tyler, Spot Martin, Jimmy Vaughn and Bill Killefer to try the nine-hole game, while the remainder of the squad sought their pep in the mountain fastnesses of the Magic Isle.

Tomorrow morning Manager Evers hopes to get a line on his pitchers. Seven new ones are to be developed in the workouts at Catalina this week.

"The only trouble is they all seem good," said Evers when asked how the prospects were.

out Larry McGrath passing around a few of those killing smiles of his the jungle bachelors. He is built the feeling that they might start out unnumbered with a jinx. Larry, however, is a good fellow and is not at all passing around the glad hand sent every man jack of the Vernons onto the road, with enough men to make John Rockefeller do a shimmy were he to have seen them in action.

Howard Lorenz cast a dozing eye over his first and early love and then turning to a friend who had been interested in the case buried "Duke" in the thunder as you going to beat 'em!"

Duke Cross—a find in the wilds of Arizona, bodies up something like Stumpy Edgington. He is built the lines that would give Strangler Lewis an awful scare were he to embrace those lines. The Duke, "his whispered, has the makings of a nifty player. He is fast—a sure catch and scorcher on the ball.

Bill Eslick needed a workout and then some, more than any of the rest of his champions. Bill must have taken on thirty pounds while abusing a piano this winter. After a little of his champion's "little sure" he boasted a bum pump under his slats and retired to the clubhouse for a Shive fanning.

Chadbourne just hogged everything in the batting, running and fielding line. He was supposed to wait his turn at the bat, but constantly got Truck Hannah's goat by cutting in on every second man.

And how Chad did amble around the sacks. He was as fast as a prospect's bedroom full of hootch on a mad scramble to Santa Ana.

Schneider drew upon him the economic frown of Bill Eslick by his expensive fungo batting. Pete elabored a few flies to Irish Daniel in centerfield and the first thing Eslick knew, six balls had cleared the fence—one of them bombarding a close by crap game, knocking two dice over that had played fair with the shooter by singing "five-two" on the first dash.

Art Fromme worked plenty of winter dust out of his system and just before the dinner horn blew, astonished a contingent from Whittier, by circling the bases in the mad whirl of one that has hit a homer.

Gee, but Gunther can sure play third base. He has a snappy pick-up, although inclined to delay his throw a little, but when he lets it go, it reminds one of Bobby Mouse's catapult.

Whence Dell didn't show up and therefore the kidders had no one to pick on. Whence is finishing up work as a lineman on the Southern California Edison Company staff and expects to get into the traces by the end of the week.

Gorman showed well around second base and little got past him. He bruised the old pill at the plate and several of the "Frog" was about to connect with the apple" from Bill Eslick.

Truck Hannah took a Babe Ruth swipe at one of Slim Love's offerings, but fouled the ball and was arched over the back fence and

crashed into a room close by, knocking a king full out of Fourrier's hand just as the Frog was about to tell Sammy Bohne to "Just take a picture of them." With the Frog, it was a case of "The blow that almost killed father."

Truck Hannah has a billberry ranch at Rivers, but is much concerned over the prospects this year as toads have gotten into the berries and bitten them almost to pieces. It was while brooding over this gloomy prospect yesterday that Truck forgot to touch first base on a triple that broke several passes of glass in the rendering factory which leans against the right-field fence.

NORMAN ROSS IS CHAMPION. (BY A. P. NIGHT WIRE.) NEW YORK, March 1.—Norman Ross, Illinois A. C. Chicago, tonight won the national indoor 220-yard swimming championship of 1921, a triple that broke several passes of glass in the rendering factory which leans against the right-field fence.

JUDGE CERTAIN SOMEBODY LIED.

Truth Not All Out on Cash Taken from Messenger.

Boy Holdup or Else Someone Allied with Him Knows.

Gives Twelve Weeks' Stay in Sentence to Lone.

Charles F. Wright, who will be 17 years old today, was committed to Judge Weyl of the Juvenile Court yesterday, for participating in the take robbery of Aubrey Culley, a messenger for a local bank, last December. Culley was carrying at the time of the robbery, \$4,000 in cash and checks valued at \$14,000.

Judge Weyl, however, granted a stay of execution of the sentence for twelve weeks. His reasons for this act are given in an opinion he wrote, and which, he says, justify his decision. Culley was committed to lone, and is serving his sentence.

The case against Wright, who is said to be a very bright lad, but strong physically, has been continued from time to time, in the hope that he would confess and reveal where the cash and checks are hidden. He has failed to do this, but it is still hoped that the cash will be recovered. He was released in the custody of his parents, under the supervision of Probation Officer H. K. Hall. Judge Weyl said, in part: "NO COLLECTION AGENCY."

"I want to say that I am not entirely satisfied as to the whereabouts of that money. But that is not the question that is to come before the court. This court is not a collection agency, but I think it is the duty of the court, where any property has been stolen by one who is, or is about to be, a ward, that the court should lead itself to every effort to recover the property. I am absolutely satisfied that there is a lot of money somewhere in this case, and somebody connected with Charles Wright or Charles Wright himself, and that money if he wants to."

There are some extremely suspicious circumstances connected with the whole thing. But in view of the fact that I find this boy to Preston he will suffer only the most serious consequences that his friend Culley will suffer, and that he will be in the four years, unless he gets out earlier for good behavior, will not think it is quite entirely fair that he should be sent to Preston during his minority."

In a year and a half the man who was originally to blame will be out, and if he goes to Preston, and gets all of the credits that he would be entitled to during good behavior, he would get out at about the same time. His release would be entirely dependent upon his good behavior. Culley's release will come automatically."

IN ANOTHER COURT. "It is true that Culley has not been handled by the same court, but this court is not bound by any ruling that has been made by another court. At the same time I think it is not improper for this court to consider these facts."

"If there ever was a case where a boy merited a wallop, so that every other boy in the community would know he could not do that same thing and get away with it, this is the case. I consider that you are one of the luckiest boys in creation that you are not getting that kind of a wallop."

"You did not need money; you had a good home; you had a kind mother; you had a stepfather who treated you just like a father; you had a good school record; you had everything to live for; you are not well physically; you were well taken care of; and while you did not have anything that a millionaire's son could have, you had as many comforts as the ordinary average boy has and a whole lot more than some of the poor little devils who come in to this court and who have some little excuse for stealing, and who say they took a bottle of milk because they were hungry and wanted something to eat."

CAN BE GOOD CITIZEN. "One last thing: If you come back here for any violation, I don't care how small a violation it is—there is not going to be any excuse taken; no mitigating circumstances are going to be considered, and you are going straight up to lone without any excuse being taken. Do you understand?" "Yes, sir."

Wins, Loses All Because His Home Brew Was Strong

Charles Shaw, caretaker for Reynolds P. McAlpine, owner of the Jungle Poultry and Pigeon Ranch at Altadena, nearly slipped under the wire a winner in U. S. Commissioner Long's court yesterday.

Shaw was charged with having sold ten quarts of home brew beer to Mr. McAlpine on September 5, last. But Mrs. McAlpine, who was complainant in the case in which her husband was named as buyer, failed to establish that a sale had been made, despite the fact that she declared that she had seen the check for the beer.

The dismissal of the selling charge followed in a boomerang way, as a result of testimony during the hearing that the beer in the case showed an alcoholic content of 4 1/2 per cent. "Filed to the United States District Court," said Commissioner Long.

As a result, though Shaw didn't sell the beer, he will have to explain why he was violating the dry law in manufacturing a brew with a higher "kick" content than 4 1/2 per cent.

MAKES MALICE CHARGE.

Oriental Bases Damage Action Upon Arrest and Acquittal.

Ding Ong, who says he was arrested without probable cause, filed suit yesterday against Philip K. Franklin, Lillian Franklin, his wife, and Dr. A. J. Quinn, for malicious prosecution. He demands damages in the sum of \$25,000. Warren L. Williams represents him. The complaint states that Ding Ong was charged with threatening to kill Mrs. Franklin. At the hearing before Justice Brown the case was dismissed for lack of sufficient evidence.

Hale's

\$1.75 Navy Tricotine \$1.00

—The heavy quality and the rich, clear blue will be a pleasure indeed to buy for \$1.00 a yard!

\$2.75 Suits—\$1.95

HUNDREDS JOIN IN RENT STRIKE.

Rebellion Leaders
Crushed with Support.

Landlords Will Try to
End Crisis This Week.

Drive for Recruits to
Fight the Gougers.

The rent strike is going even better than we had expected," declared C. Steele, president of the Protective Association, last night in reviewing the accomplishments of the first big test of strength between tenant and landlord under the new regulating ordinance. "All points point to the fact that at least 100 people availed themselves of the protection afforded by the ordinance and declined to pay their rents more than the rental which was for."

There was not had a chance to make a calculation on the number of people who are out on this point," said Walter Gould Lincoln, secretary for the association, "but the number of persons seeking work on the lower end of the street through my office during the night would say that a good many must have refused to pay."

A number of people kept busy answering telephone calls on the subject and had a long line of persons who wanted to certain that they understood the procedure which they should follow in striking.

TENANTS IN HARBOR.

The tenants are far more in heart than even the most optimistic others in the association had hoped they would be and they are thoroughly aroused both to the importance of what they are doing and the protection which the ordinance gives them."

Mr. Steele and Mr. Lincoln, who were the speakers at the meeting, said that they will still greater demonstrations tomorrow by the renters today and through the rest of the week.

"This thing has just started," declared Mr. Steele, "and I believe that the end of it will be a great such headway that the landlords will, by making radical reductions in their rents, be forced to grow up with the times."

Many are already being provided in the ordinance and are not making any fuss about because they do not want to have their tenants by refusing to rent the tender and at the same time they are afraid to let the of the landlords' association that they are wavering."

HOLD CONFERENCES.

Following the policy of regional conferences with a view to checking progress made and directing strikes most effectively, leaders of the movement attended meetings of various parts of the city last night outlined to district committees work for the week. Special emphasis is being placed on the importance of securing recruits to the ranks of the strikers every day.

Those who addressed local committees last night included Dr. C. H. W. C. Steele, E. Rosenbaum, W. G. Lincoln. A special drive to secure strikers in the Jewish quarter will be conducted today.

BULLOCK'S SITE

WORTH \$5370.

(Continued from First Page.)

particular stress upon the importance of this angle of the question, as this matter is of grave importance to the future business development of the city.

FIGURED IN ROOM.

The annual rental value of the site in the building is based on an estimate of 34,000 square feet in the connecting unit at Bullock's at 150 per square foot gross annual rent. This gives a total of \$5,100,000. This is deducted taxes, amortization and maintenance charges, totaling annually \$38,480, leaving a net rental value balance of \$5,061,520.

The report says that the ground value is the chief carrying power of the property, and in the case of St. Vincent's Place, this value, now instead of being used as a right of way by the board, in the report, which also the "grab" charges of the street papers, says that if the fee at Vincent's Place is in the hands of the city, the city should have the right of way over the alley. Investigation of the records shows that the city owns only an easement at St. Vincent's Place and that the fee rests with the Eastern Company, Dwight Hart, the Niles Paine Investment company and others who own the property abutting on the west side of Vincent's Place, and to James Lankershim, the Hollenbeck Home and others who own the property on the east side of the blind alley, all of whom have given long-term leases to Bullock for store purposes.

NEW ANGLE DEVELOPS.

The Board of Public Works was given into the Hearst campaign against Bullock's as the result of an action asked for and rendered by Attorney Stephens last evening.

Los Angeles

TOO BAD ABOUT HEARST CHIEF.

Naturalized Canadian Forced to
Siam Countryman to
Hold His Job.

The few readers of Hearst's Los Angeles Examiner with its daily columns of cheap stage - Ensigns of the Hearst empire hurried at Arthur Letts, a former Canadian who became a good and patriotic American citizen some twenty years ago, recall with amusement that George G. Young, manager of the Examiner, also is a native Canadian, was not naturalized until 1917, about fifteen years after Mr. Letts became a citizen. However, in order to hold his job with Mr. Hearst, who sits in New York and tries to stir up discord at that range in Los Angeles business circles, Mr. Young is obliged to daily brand Mr. Letts as an "alien," an "outlander," "Sir Haw-thur," etc.

in which he declared that the twelve months time limit for the completion of the Bullock's connecting unit as set by the ordinance passed in 1919 by the City Council having expired, it is now up to the board to determine whether or not the structure being built by Bullock's over St. Vincent's Place constitutes "an obstruction of the alley, and if so, whether or not the public interest and convenience requires its removal, and the removal of such portions of the structure as are now within the alley."

Should the Board of Public Works decide that the structure now being built over the alley is an obstruction, the City Attorney states that the board should immediately serve notice on Bullock's "to at once cease work and to begin within a definite number of days the work of removing such structure."

WOULD ASK INJUNCTION.

If work is still continued, the opinion states, the board has the power to take action "to effect a removal of the objectionable features" of the structure. Should the board decide that the Bullock's structure is an obstruction and order its removal, it is expected that attorneys for Bullock's will apply for an injunction.

Attorneys who have followed the case predict that the board will predict Bullock's in the courts, as the ordinance to permit the structure was applied for and granted in good faith, and the work has been diligently prosecuted. Conditions at St. Vincent's Place have not changed since a similar permit was granted in 1917 for the first and existing Bullock's structure over the blind alley, nor have they changed since the permit for the structure now under way was granted by the City Council in 1919.

INJUNCTION

SOUGHT BY

ART CHIEF.

Mitchell Wants Courts to
Halt Bullock's Activity on
Bridge Structure.

The contest over the St. Vincent's Place construction by Bullock's reached the courts yesterday afternoon when John W. Mitchell, president of the Municipal Art Commission, acting as his own attorney, filed a suit to enjoin Bullock's from proceeding with the work on bridge building over the alley.

Presiding Judge Shank issued an order to show cause why a permanent injunction should be granted, to be heard in Judge Myers' court at 10 a.m. Monday. He granted a temporary restraining order contingent upon Mr. Mitchell furnishing a bond in the sum of \$5000. Mr. Mitchell said the bond will be furnished this morning. Upon this being approved, construction work will be stopped until the matter has been determined by the court.

Mr. Mitchell cites three main points: First, that the plans and location for the bridge work were not approved by the Municipal Art Commission prior to the issuance of the permit; second, under the terms of the charter all rights have been forfeited and under the ordinance itself after the permit was granted; third, the construction constitutes a public nuisance because it extends over a public place without due authority of the law.

Roy Knabenshue

is Defendant in

Divorce Action.

Roy Knabenshue, pioneer aviator in Southern California, who made history in Pasadena by flying a dirigible of his own make there in 1914, now finds himself facing an adventure by no means so novel, according to a divorce action filed yesterday under the title of Mabel F. Knabenshue vs. Augustus Roy Knabenshue.

Mr. Knabenshue built a large dirigible in 1915 and attained considerable fame by his ventures in the air. On September 8 of that year he made his final flight, attaining a height of 500 feet and the news was flashed over the State. A few weeks later he made another trip, carrying five passengers, including his wife.

Neither of the parties to the suit could be reached last night for an explanation of the family breach.

W. R. WHITTIER DIES.

Manager of Estate at Hemet is
Found Dead in His Bed.

(EXCLUSIVE DISPATCH.)

RIVERIDE, March 1.—William R. Whittier, manager of the Whittier estate at Hemet since the death of his father, W. F. Whittier, San Francisco capitalist, was found dead in his bed in Hemet this morning by T. R. Jolley, ranch foreman. Death is ascribed to natural causes. Mr. Whittier was 46 years old. He leaves a sister, who resides in San Francisco.

Lake to be Beauty Spot of San Gabriel Mountains.

Contour Map of San Gabriel Flood Control Reservoir Designed to Hold All of Immense Run-Off.

DAM WILL STOP FLOODS.

Chamber Committee Hears Details of San Gabriel River Project.

Absolute control of the entire runoff of the San Gabriel watershed, certain prevention of the disastrous floods which have several times devastated the rich citrus lands of the lower San Gabriel Valley and a great enhancement of the irrigation resources of the valley were yesterday afternoon laid before the Flood Control Committee of the Chamber of Commerce as possibilities by Flood Control Engineer Reagan.

CASTORIA

For Infants and Children
In Use For Over 30 Years

Always keep
a supply of Castoria

who submitted to the committee detailed plans and estimates for what will be the highest dam in the world.

Mr. Reagan's plans, which have been formally approved by A. P. Davis, chief engineer of the Reclamation Service, call for the construction of a concrete dam 425 feet high at a point in San Gabriel Canyon where the North Fork and the San Gabriel River join and turn at right angles toward the sea. The dam, which will be eleven miles from Azusa, will contain 3,000,000 cubic feet of masonry and would gradually lengthen from about 300 feet at the stream-bed level to a length of 1700 feet along the top.

LAKE EIGHT MILES LONG.

This dam will back up a lake eight miles long in an east and west trend and with a maximum width of a mile and a half. The lake will

have a surface area of 2087 acres, and will contain 322,000 acre feet of water.

The San Gabriel watershed contains 222 square miles, and the proposed dam will impound the entire runoff of 200 miles of this territory and will hold back more water than has ever come from the entire watershed in any one flood year. Only once since 1895 has the annual runoff of the watershed exceeded 322,000 acre feet, and that was in 1905-07, a season without floods.

Construction of this dam will permanently remove the flood menace from 102,000 acres of highly cultivated land lying between Azusa and the sea, the chamber committee was told by J. A. Bell, an irrigation engineer of San Gabriel, who appeared before the committee with Mr. Reagan. This land, said Mr. Bell, is nearly all in a high state of cultivation and has a taxable value of about \$30,000,000 and an actual value of approximately \$100,000,000.

SAVE WASTING WATER.

Mr. Reagan explained to the committee that the flood control district has neither the power nor the intention to distribute the impounded water. All that the district

can do is to prevent floods, and the distribution will have to be handled by the organization of an irrigation district or some similar association of land owners with water rights.

The San Gabriel dam will cost about \$2 per cubic foot, including all overhead and incidental charges, or a total of about \$34,000,000, it is estimated.

POWER IS BIG ITEM.

The first source of revenue will be from the water power to be developed, which will be an average the year through of 11,450 horsepower. At the lowest average market price this power will yield \$769,000 per year income, and the water can be sold as low as 1 cent per inch-hour, or \$6 per acre foot, and bring an additional revenue of \$400,000 per year, making the total minimum income \$1,169,000. This tentative proposal of water rates is from one-third to one-sixth below the present water charges of the land now irrigated.

The enhanced value of the lands in the San Gabriel Valley, because of perfect insurance from floods and because of the lessened cost of irrigation, will be almost beyond computation.

A Rare Raisin Pie

—fresh and delicious, waits for you at your grocer's or your bake shop, or you can make one at home according to the recipe below. Serve for dessert tonight.

Filled with plump, tender Sun-Maid Raisins. Baked so the juice forms a luscious sauce. The men folks call it "rare pie," and it is.

For it's baked according to a special recipe, the result of many tests. You've never tasted better pie, if any equally as good. Nutritious, too, for raisins furnish 1560 units of energizing nourishment per pound. Try one now. Every first-class baker has this pie—or you can use the recipe below.

Raisins are rich in iron content; and it is iron in the blood that brings the bloom of youth to women's and children's cheeks.

So raisins are a "beauty food" as well as healthful and delicious.

Make many foods with raisins. Learn what these raisin dainties mean.

SUN-MAID RAISINS

Always cook with Sun-Maid Raisins, the finest raisins grown. Packed in California in an immaculate plant—clean, sweet, wholesome American raisins—the kind you know are good.

Made from sweet, tender, juicy California table grapes, noted for their fragile skins.

Taste their plump, tender meat and

you'll always want Sun-Maid Brand.

Three varieties: Sun-Maid Seeded (seeds removed); Sun-Maid Seedless (grown without seeds); Sun-Maid Clusters (on the stem). All dealers. Insist upon the Sun-Maid Brand.

Send for free book, "Sun-Maid Recipes," describing scores of ways to use.

CALIFORNIA ASSOCIATED RAISIN CO., Fresno, California
Membership 10,000 Growers

The Recipe

Cut This Out and Keep It

2 cups Sun-Maid Raisins
1½ cups boiling water
1 cup sugar
4 tablespoons cornstarch
Juice 2 lemons
1 tablespoon ground lemon rind
Juice 1 orange
1 tablespoon ground orange rind
1 cup chopped walnuts

Cook raisins in boiling water for five minutes; pour into sugar and cornstarch, which have been mixed. Cook until thick; remove from fire and add other ingredients. Bake between two crusts. Walnuts may be omitted if desired.

Jacoby Bros.

Now comes an unusual Sale of

800 Men's Shirts

In best liked colorings and patterns at

\$1.85

—Very high-grade Shirts of Imported French Madras—the same sort of Shirts that caused such a lively stir a few weeks ago.

—They're so very unusual from both quality and value standpoints that we look to see men snap them up in short order.

—In addition to the Madras Shirts, there are a few very splendid Shirts of Russian cords included!

—See the Shirts on display in our window the first thing this morning, and then plan to be among the first buyers.

300 Men's Shirts at \$2.95

—Splendidly made Shirts of high-grade, imported Madras Cloth, with exceptionally attractive patterns, also some of self-striped White Sateen.

—You'll think they're the most exceptional sort of values at \$2.95.

Men's Silk Shirts at \$5.98

—Not regular \$5.98 shirt by any means—but just the very sort of shirts that you have seen about town at ever and ever so much more. Included are plain white silk broadcloths, satin-striped Jersey silks and richly-patterned Silk Broadcloths. All sizes.

Main Floor—North Building—Jacoby's

You Will Look and Feel from 10 to 20 lbs. Lighter in a **STYLISH STOUT**

Another Lot of Genuine Levi Strauss Koveralls to go at \$1.00

—Any number of mothers have been waiting for this second shipment of Koveralls. The first lot went out so quickly that scores of women who came in answer to the advertisement were disappointed to find that the size they wanted was gone.

—This morning we will put out 600 Koveralls of heavy blue denim and in lighter weight khaki. All sizes up to 8 years.

The Floor o' Youth, the Fourth—Jacoby's

300 "Everwear" PLAY SUITS at . . 89c

—A well known make that we bought underworth to feature Jacoby Day.

—Some are of heavy blue denim with red trimming, others of medium weight twill. Sizes 1 to 8.

—None sent C.O.D. and no exchanges on these.

The Fourth Floor—Jacoby's

2880 Men's Athletic Union Suits 79c

—You can well imagine how advantageous our position with the manufacturer was, when we could handle such a quantity as this. We doubt whether such Union Suits as these were ever offered even in the days before the war at such a low price.

—These Suits are made of fine nainsook—they're cut splendidly full and and finished with tape seams, which means extra wear. There's a wide knitted band across the back which makes for comfort. All sizes.

—No phone orders will be accepted on these and none will be sent C.O.D. Mail orders will be accepted, providing they are received before quantity is exhausted. We suggest the buying of a dozen suits.

—People who know, say they're worth fully three times this price.

—Our buying chief was only able to secure a limited number of these beautiful necklaces to sell for so far underworth.

—They are imported indestructible pearls of exquisite luster and come in graduated sizes with solid gold clasp.

—The designs are remarkably effective and the quality is such that the beauty of these brooches will last. Brilliant and other stone settings.

Main Floor, South Building—Jacoby's

54-In. Navy Serge, \$1.00

—It's not all wool, but it will be difficult to convince many people that it is not. It's built to give very splendid service—and it will.

54-In. Botany Serge, \$1.98

—A very splendid, heavy, all-wool Navy Blue Serge at a price very much under its worth.

Second Floor—South Building—Jacoby's
